

KATE YEEUM

FRONT-END WEB DEVELOPER

SUMMARY

Experienced Junior Web Designer. I have worked full web development process in a team, and working as UI Developer remotely to improve my skill.

I love hiking, and discovering new places, but above all, I enjoy thinking of user-experience when making websites. Also, I am so into studying code !

PROFICIENCY

- HTML5
- CSS3
- WordPress
- GitHub
- JavaScript
- Bootstrap

WORK EXPERIENCE

- **KANTUKAN** (Front-End Developer)

November 2016 ~ Current

Working as developer freeter at system development depart of Kantukan company. My main role is developing UI page based on mockup created by designers.

I also really enjoy communicating on Slack to understand the mission and work with team members!

- **ARTIST PORTFOLIO**

November 2016 ~ Current

Final Project from BCIT | WordPress | Team project

Wordpress artist portfolio website made for Canadian Artist Aimee Henny Brown with skilled team members. We built information architecture, wireframe, HD mockup based on discovery meeting with a client. My main role in development was creating Press and Resource pages. It was an amazing team project for one month and a half with daily meetings!

EDUCATION

- **British Columbia Institute of Technology**

Computer Systems | January 2017 ~ Current

Studying software development languages including Java, C, and C++. Also learning discrete mathematics and computing concept. I do love learning code!

- **British Columbia Institute of Technology**

Technical Web Designer | May 2016 ~ November 2016

Intensive six-month program to learn major languages which used in web design field. Also, we had a chance to work for a real client for the final project. This program was my turning point getting into the computing field!

- **British Columbia Institute of Technology**

Business Essentials | September 2015 ~ Current

Learned essential business skills including Marketing, Public-speaking, Accounting, Business Math and Business English writing. I have good fundamentals of Business!
